Year 14:
Welcome back to the wild and wonderful!

As a grand finale of the summer season, Stockholm Fringe Festival (STOFF) traditionally parades through a holiday blues-struck mind like a carnival of adrenaline to eject you out of hibernation. And thank goodness for that - there is no tolerance for dull and dreary affairs being a resident at the Fringe!

This year we are proud to present a palette of a true fringe assortment. We list over 120 events from over 20 countries with 159 creatives who will fill 17 stages and locations across the city, from the rooftop heights of Stockholm's southern side, Södermalm, to a sightseeing boat that will take the audience on a unique and thought-provoking Night Journey. STOFF 2023 fully embraces the entire city and dissolves any hint of gloom and doom.

STOFF is and always will be a homage to artists whose voices seldom are heard and to works that so often fight unwarranted battles to take any place. The fringe movement started as a revolution against the order in its celebration of art, diversity and democracy. It consists of the wild and the free, the real and the magical, the weird and the wonderful, the gut-wrenching truth and the punch and where you least expect it. We encourage you to embrace and support this admiring force.

We're thrilled to once again offer you the quick fix for a bored mind and can't wait to embark on the 14th-year shenanigans for the Nordics' naughtiest festival. A warm welcome to join us in this explosive spark to kick off the fun autumn season ahead.
